

Observations on E Dubai

By Mr. Prospector, breeders can take advantage of the success of the Danzig / Mr. Prospector nick by sending Danzig line mares to visit him.

E Dubai's dam Words at War's pedigree is interesting – her grandsire General is an obscure member of the MARCHETTA family, which is better known for such members as **Turn-to, My Babu, Irish River, Alycidon, Klairon, Ambiorix, Agricola** etc and will appreciate their presence in mares.

Kenmare will look good with him – he traces to PARAFFIN via Premiere Danseuse who is the fourth dam of Con Brio, damsire of Lord at War. Other PARAFFIN members in E Dubai include Case Ace, Speak John and Never Say Die.

The presence of two **Nasrullah / Princequillo** combinations in Words at War begs the inclusion of more instances of this dynamic pattern in mares.
