

Observations on Falbrav

By Fairy King, Falbrav will be attractive for mares carrying members of the same family, such as GEIGER COUNTER, YEATS, LORENZACCIO, NUREYEV, INFLATE, VAL DE LOIR etc.

Fairy King's damsire Bold Reason responds very well to the presence of his half brother NEVER BEND in matings.

On Falbrav's dam side, he carries the unusual individuals Lithiot and Kirkland Lake. Lithiot is a descendant of ALCIBIADES, who is better known for being the ancestress of SIR IVOR and MENOW. This makes matings with SIR TRISTRAM line mares for instance, very appealing. Menow is accessible through sires such as LUNCHTIME, BLUSHING GROOM or BUCKPASSER.

Kirkland Lake is from the CANTERBURY PILGRIM family, of which STAR KINGDOM is also a key member, creating a host of opportunities for linebreeding reinforcement with mares from this prolific line.
