

## **General Nediym**

The obvious pattern in his pedigree is the inbreeding to Right Royal V 3f x 4m. Right Royal V, along with his own damsire Victrix, and further back, 17 presences of Polymelus, are members of the QUIVER family. Reinforcement of this family via other members will be interesting. These include Sunday Silence, Umidwar, Balloch, Umidaad, Palestine, Wild Risk, Udaipur, Airway, Birthright, Abbot's Fell, Sea Hawk, Lucky Debonair and Beau Pere. General Nediym's daughter, the Magic Millions winner Regimental Gal, carries 23 lines to Polymelus as well as Palestine through her dam.

General Nediym's pedigree is built on four Pharos / Hyperion crosses through Nearctic, the duplication of Right Royal V and the dam of Without Fear. Some other individuals who can reinforce this strong pattern are Biscay, Vain, Marshua's Dancer, Vaguely Noble, Dignitas Landau, Baguette, Neapolitan, Taipan II, Graustark, Hermes, Tudor Melody, Thatch, Orgoglio, Delta Judge, Mossborough, Ben Lomond, Petong, Posse, Special and Hornbeam. Again, Regimental Gal's dam supports this line of thought by carrying three Pharos / Hyperion crosses via Biscay and her duplication of Nearctic.
