

PEDIGREE DYNAMICS

BROODMARE SIRE COMPATIBILITY
“SEIGNORIAL (USA)”
Kingmambo - Suavite

Seignorial's sire Kingmambo has sired several stakes winners bred from **NORTHERN DANCER** line mares. In Australia and particularly Western Australia, this opens up opportunities for daughters of such speed sires as **BLETCHLEY PARK, CITIDANCER, DAUBERVAL, DANEHILL, BLUEBIRD, JUGAH, SNAADDEE, MISTER C** and **LAST TYCOON**

Kingmambo's successful crosses with His Majesty is of particular interest as he is a brother to Graustark, who features in Kingmambo's pedigree as the grandsire of his second dam. This gives further appeal to daughters and granddaughters of **DANEHILL**, whose damsire is His Majesty.

ZEDITAVE also carries a close relation of Graustark, as does **PRINCE ECHO**, making their daughters appealing for Seignorial.

One of the best horses so far sired by Kingmambo is the G1 winner El Condor Pasa. He possesses a pedigree which involves inbreeding to the close relatives Nureyev and Sadler's Wells. Kingmambo has also sired Listed winner Indigo Myth out of a Sadler's Wells mare. This suggests that **SCENIC** mares will do very well in producing Oaks and Derby types with Seignorial.

HAULPAK and **DON'T SAY HALO** mares will create a 'sex balanced' duplication of Round Table, a good speed pattern.

Another line that Kingmambo has done well with is Damascus, producing the stakes winner Bluemamba, which brings to mind the compatibility of **SALIERI** mares with Seignorial.

Kingmambo's stakes winning miler, American Odyssey is out of a half sister to **SUCCESS EXPRESS**, so matings to daughters of this sire will create a very similar pedigree pattern.

Kingmambo also has sired stakes winners to mares by Caro, sire of **CHERAW**.

The inbreeding to Princequillo in Seignorial's dam Suavite will be an attraction for **STAR**

KINGDOM line mares, as he works very well with this individual.

In Western Australia, they include mares by **JEVINGTON, CORPORATE RAIDER, BLACK KITE** and **ZABALETA**. Australia-wide, mares from the **LUSKIN STAR, MARSCAY, KAORU STAR** and **BLETCHINGLY** branches are also highly desirable for Seignorial.

In the near future, daughters of **METAL STORM** look exciting with this sire. He is out of a mare by Habitat, who is a half brother to Seignorial's third dam.
