

PEDIGREE DYNAMICS

***PEDIGREE ASSESSMENT AND
BROODMARE COMPATIBILITY NOTES
“SPRINGSTEEN”***

Springsteen carries three members of the ST. MARGUERITE family - Admiral's Voyage, Fighting Fox and Sandastre. This line can be further strengthened by mares carrying Hail to Reason. He can most readily be sourced through the **HALO** and **SADLER'S WELLS** lines.

VAIN and his sire **WILKES** are working well with Danehill. Danehill has several stakes performed progeny, including Danelagh, Aquiver and The Golden Dane, who carry Vain or Wilkes in their dam's pedigrees.

Wilkes' sire **COURT MARTIAL** appears in the Group One winners Danasinga and Special Dane. Court Martial shares the same Fair Trial / Gainsborough cross as Petition, Danzig's second damsire.

SIR TRISTRAM also has a favourable strike rate with Danehill. Group One winners Nothin' Leica Dane, Danske, Dane Ripper and Blackfriars plus Group One placed Dangerous are examples. Sir Tristram also appears in the dam of Group 3 winner Mannington.

Duplicating **NORTHERN DANCER** is also working for Danehill in Australia. Group One winners Redoute's Choice, Johan Cruyff and Listed winner The Golden Dane carry **NIJINSKY II**, while Group 2 winner Happy Morning is out of a **SADLER'S WELLS** mare. Triple Group One winner Flying Spur has Northern Dancer as his third damsire.

HALO creates further linebreeding to Danehill's duplication of Almahmoud. This is also the family of **EL MOXIE**, **YOUTHFUL LEGS**, **ARCTIC TERN** and **MACHIAVELLIAN**.

The **MR. PROSPECTOR** line has also had marked success with the Northern Dancer line.

Danehill's damsire His Majesty is from the **BOUDOIR** (4) family. **CROWNED PRINCE**, **SECRETO** and **WHISKEY ROAD** are amongst its other members.

Biscay is present in Springsteen through a daughter, Biscalowe. Duplication of Biscay by providing it through a son in a broodmare is an option for Springsteen. "Sex balancing" in this manner is preferable to duplicating Biscay through two sons or two daughters. Sons of Biscay include **MARSCAY** and **BLETCHINGLY**. (Mares by sons

or out of daughters of these two sires are also desirable.)

The following is a representative list of current broodmare sires and individuals which appear within the first four generations of broodmares' pedigrees which will enhance the success of matings with Springsteen.
